

# Doors & Millwork

HUNTWOOD®

Imagine all of your doors and millwork in the same quality finish as your cabinets.

## Exterior Doors

Nothing creates a better first impression than the perfect entry door. No matter what design theme you are trying to achieve, we have the perfect artisan door for you. Choose from one of the industry's largest selections of woods, colors, panel configurations and glass options.

Until now, most builders have had no other choice but to stain and finish their doors and millwork on site - resulting in an inferior finish that does not match their cabinets. Huntwood allows you to choose high quality doors, window trim, baseboards and stair parts in the same style, wood, color and award winning Lasting Touch™ finish as our cabinets.

## Window & Door Trim

A truly custom home includes coordinated door and window trim, complete with matching architraves and baseboards.

## Interior Doors

Simply opening and closing a Huntwood door is a pleasure. You can feel the solid core and time-honored craftsmanship. We make it easy to match the door style

and style profile of your cabinets. And remember to consider **Glass Doors** for additional visual interest.

## Stair Parts

Huntwood allows you to continue your design theme throughout your stair posts, rails and spindles.

## Barn Doors

Make a bold design statement with one of our many barn door options.

We also provide track systems and door prep to ease your install. Let Huntwood be your 1-stop shop!

Huntwood's doors and millwork are built to a higher standard.

## Door Assembly

Huntwood's quality of construction is assured through the use of state-of-the-art machinery that monitor tolerances for consistent specifications. Exterior doors are machined and assembled based on the leading residential testing system for performance against air and water infiltration.

At first glance, many doors may look alike, but will they hold up to years of heavy use and inclement weather?\* With Huntwood, you can be assured of the utmost in performance and durability. From wood selection to quality components, prep, machining, assembly and finish, your Huntwood doors will stand the test of time. *\*See Huntwood Limited Warranty for details.*

## Premium Finish

Huntwood's 12-step Lasting Touch™ finish is the toughest in the industry. This state-of-the-art finishing process assures the ultimate in durability.

### Dual Joinery Performance

Huntwood uses extra-strong manufacturing techniques, such as mortise & tenon construction, doweling and gluing.

### Solid Wood Jamb

Huntwood offers a variety of jamb profiles designed to match various assembly requirements.

### Solid Hardwood Cores

Solid, engineered cores are surrounded by a heavy veneer. Feel the quality every time you open and close your doors.

### Ball-Bearing Hinges

Hinges are fitted to the weights and sizes of each door, and come in several finishes that match door handles.

### Wood Selection

Huntwood is able to maintain complete control of integrity by cutting our own veneers and engineering our own cores.

### Lasting Touch™ Finish

Huntwood's award-winning, environmentally friendly process is the toughest in the industry.

## Homeowners Appreciate Huntwood

"The people at Huntwood are truly masters of design. Not only did they make beautiful cabinetry throughout our house, but also designed all of our inside doors, railings and moldings! Everything matches, making our home a Huntwood masterpiece!"

*John & Christie Olsen*

# Ordering Huntwood doors is as easy as 1,2,3,4

Whether you are a homeowner or a builder, let Huntwood be your 1-stop shop. Our turnkey system provides you with locally built products, finished in-house, and delivered to your job site with no third party resources in between.

Simply select one from each category:

- 1 Wood Specie**
- 2 Stain or Paint Color**
- 3 Panel Configuration**
- 4 Style Profile**

Then, if you wish, add glass panels.

## 1 Choose your Wood Specie

*NOTE: Colors shown are approximate and will vary from actual physical colors due to photography and printing limitations. Please see a current door sample or wood chip in your desired wood and stain color before ordering doors.*

## 2 Choose your Color

### Transparent Stain Colors

### Solid Paint Colors

### Special Finishes

# Why choose Huntwood?

## Trust the Leader

No other manufacturer has the depth and breadth of interior products and services, jobsite delivery and custom shop capabilities all from one source. Our state-of-the-art 567,000 sq.ft. plant combines the precision of high-tech automation with time-honored craftsmanship.

## Limited Warranty

Huntwood products are built to a higher standard and provide long-term peace of mind through one of the industry's best warranties.\*

## Our Green Standards

Huntwood's state-of-the-art plant is the most environmentally friendly facility in the world. Our finishing process reduces VOC emissions to low levels, (resulting in a SCAPCA Clean Air Award) and has a reclamation function that recycles 80% of surplus materials into future applications, minimizing waste

in the process. We use wood only from companies committed to sustainable resources.

Committed to Sustainable Resources 80% Waste Reutilization
